# SERVICES

## PARTS SUPPLY

Griffon Aviation Services is a world class commercial aircrafts parts supplier. We work directly with large network of OEM's, teardown companies, distributors, and MROs, to source and make available large inventory of highly selected, highly demanded parts and components to keep your aircrafts in the air. Our competitive prices and flexible payment options make procurement easier and faster, so whatever you need, whenever you need it, we have you covered.

## COMPONENTS REPAIR & EXCHANGE

Our component repair and exchange program allows airlines to save both time and money by providing the parts they need, when they need them. Our exchange and repair program provides immediate replacement of the airlines unserviceable spare-parts while avoiding large increases in inventory costs.

## CONSIGNMENT & SURPLUS

Our Consignment & Surplus program allows you to sell excess new or serviceable parts to free up additional space, reduce your operational costs and improve cash flow. Griffon Aviation's team will warehouse, market, exchange and ship your inventory anywhere in the world. The Griffon Aviation team specializes in the sale and purchase of parts and material for Airframe, Engines, APU's, & Landing Gears. Let us turn your excess inventory into capital.

## CONSUMABLES & EXPANDABLES (C&E)

Our C&E program is specifically designed to save you time and money while reducing your capital investment by planning, procuring, transporting and managing your spare parts. Whether it's metal extrusions, cables, seals, adhesives, lubricants, switches or hoses, Griffon Aviation will ensure we have the exactly the spare parts you need when you need it.

## ROTABLE COMPONENTS

We are your trusted supplier for Airframe Rotable Components including avionics, engine parts, APU's, hydraulic systems, landing gears, wheels, brakes, electrical and radio communication instruments. Griffon Aviation will warehouse, market, exchange and ship your inventory anywhere in the world and if we don't have it in stock, we will find it for you.

## AOG SUPPORT

Griffon Aviation understands how critical it is for you to get your parts order fulfilled and your aircraft back in the air. Our dedicated, expert AOG support team, works 24/7. 365 to fulfill your A.O.G. order quickly and accurately every time.

- Counter to Counter Delivery
- All AOG orders are monitored and tracked from its origination to client site.
